

“This book will change the way one thinks about the process of learning. The many examples help provide explicit guidance on how to move from a teacher-centered to a learner-centered approach.”

—Eric Mazur, area dean of applied physics, Harvard University

Learn how to harness students’ natural curiosity to develop self-directed learners. Discover how technology allows students to take ownership of their learning, create and share learning tools, and participate in work that is meaningful to them and others. Real-life examples illustrate how every student can become a teacher and a global publisher. The embedded QR codes link to supporting websites.
